The Ergo Group of Companies takes pride in its 25 years of excellent service to its global customers. With distribution of office furniture located in the Philippines, Singapore, Malaysia, Dubai, Guangzhou, Shanghai, Hong Kong, Australia and the United States, Ergo assures the world executives comfort and optimum performance.

THE ALUMINIUM COLLECTION

Without doubt, the Aluminum Group is among the most distinctive works ever produced by Charles Eames, one of the most influential and innovative designers of the 20th Century. Introduced in 1959, the Aluminum Group version is in leather:

The structure frame, armrest and base are made of cast aluminum with chromed, polished or epoxy finish. This work is now universally regarded as a classic and is part of the Museum of Modern Arts in New York.

The Aluminum Group is now introduced on beam seating and in exciting colors, both in fabric and leather:

Developed from the classic Aluminum Group structure, the Nylon Mesh Group added extraordinary elegance with functional characteristics to the Collection. Its soft and airy suspended backrest and seat allows dissipation of heat from the seat and back. The Mesh Group is also available on beam seating.

The Soft Pad Group chair was a natural evolution of the Aluminum Group and was presented in 1969. Enriched by the padded cushion, this version brings further soft comfort to the Collection and new personality. Seat and back cover can be either in fabric or leather.
