# Ergo<sup>®</sup> is ERGONOMICS

Ergonomics is the Science that studies the co-relation between man and his work environment, from which man can operate with ease, yet producing his best

*Ergo<sup>®</sup> is the registered trademark of Philippines & Malaysia  
ergoUSA<sup>®</sup> is for US & China  
Ergoworld<sup>®</sup> for Singapore.*

## Our *Vision*

to bring **JOY**  
and **COMFORT**  
to all those who  
use **Ergo** products

## Our *Mission*

to develop,  
manufacture  
& distribute  
**PREFERRED**  
**QUALITY** office  
furnishing systems  
with **TOTAL**  
**CUSTOMER**  
**SATISFACTION**  
at competitive prices

## ecomagination

A cleaner environment is just 93 million miles away.  
Thanks to Solar Technology from GE, solar systems  
worldwide can supply power to thousands of homes  
with very low emissions.  
All with a little help from the sun, of course.

## WORKING TOWARDS ZERO WASTE

We are working towards  
**Zero Wastage** both in our  
*production* and *office* activities,  
through the **RIGHT CHOICE** of  
raw materials and  
operational efficiencies.

We believe in *saving* **MOTHER EARTH**,  
and to this end we use only **recyclable**  
and **environment friendly** materials

We have achieved:

Chairs  
Systems  
Storage  
Fabric

100%

Seating

# BETA2

Ergonomically designed mid-level chair with a simple low back support. It employs a tilt mechanism with adjustable tension control. Mesh backrest allows improved ventilation and transpirations, to provide exceptional thermal comfort.

## KAPPA 3

Kappa 3 (K3) is the third generation of the Kappa series. It is a mesh back chair that allows dissipation of the heat accumulation on the user's back. The seat employs a contoured 70mm fire retardant injected foam to offer soft comfort. The redesigned K3 eliminates the bulky aluminum brackets giving the chair a cleaner, lighter and slender look. The lower back support has been enhanced with larger support area and easy adjustment. The arms support are firmer and the arm pads contoured for a more comfortable rest. K3 operates on an Italian designed synchron mechanism; the movement is smooth and lockable in five positions. Employing a high-legged base, K3 is more elegant and comfortable.

# Theta Executive

The backrest of the series comes with a well designed back cover.

# Theta 2

Combining classical and modern architectural lines, this series of chairs enhances office spaces with its distinctive look. It employs a permanent contact mechanism with a spring controlled backrest tension for the executive lines.

This series of chairs is a genre of modernism and style.  
It employs a permanent contact mechanism with a  
spring controlled backrest tension.

# Phi Mesh

Modern ergonomic designed chair, comfortable, simple and yet functional. It employs a tilt mechanism and adjustable tension control with integrated lumbar support.

# Nova

# Delta

First introduced by the French, this ergonomic designed chair has become a classic and is designed for use as a task chair. Elegant in design, may be upholstered in a variety of seat coverings.

# Theta Staff

Combining classical and modern architectural lines, this series of chairs enhances office spaces with its distinctive look. It employs a spring controlled backrest tension mechanism and a permanent contact mechanism for the executive line. The backrest of the series comes with a well designed back cover.

# Rabami

A versatile Danish design chair that eludes strength and functionality. This series can function as a 6-seater beam seating or mounted on a four legged structure to be a visitors' chair. With the added option of a writing tablet, it transforms into a student or trainee's chair in an education environment. On a swivel base, it becomes a staff chair. Its molded anti-static polypropylene plastic shell can be upholstered in fabric or leatherette for more padded comfort.

# Kora

Contemporary Italian design for easy matching with other furniture pieces, either in the office or at home. Comes in a variety of colors and in upholstered versions too.

# Delfi

This Italian designed multi functional chair is available in different structure. Ergo was the original licensee of this design for Asia in 1990. Currently, it is the most copied chair in the market. However, Ergo still take pride in maintaining the original European standard quality in this challenging market of competing with all the imitations. Delfi may be beam mounted for a waiting lounge, placed in rows as in a concert hall or in a church or simply as a dining chair in your home.

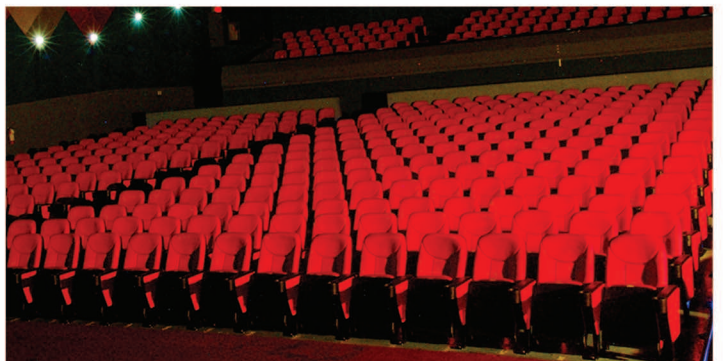

# Auditorium

Contemporary auditorium chair with ergonomic features, it has an option of a retractable writing tablet that can be concealed into the armrest. The seat and back foam is made of high density fire-retardant molded foam.

# Cinema

The backrest is reclined at a comfortable angle to allow the user to listen or watch in comfort without straining the neck and the back. The polyurethane arm with cup holder is set at the optimum level to add this feeling to ease and relaxation. Option: Love Seat Model

# DESKING

## *ED 60S*

Your desk is your personal realm.  
Choosing the right one, reflects your nature.  
At Ergo, our desking options are limitless and definitely suit each one.

**SYSTEMS**

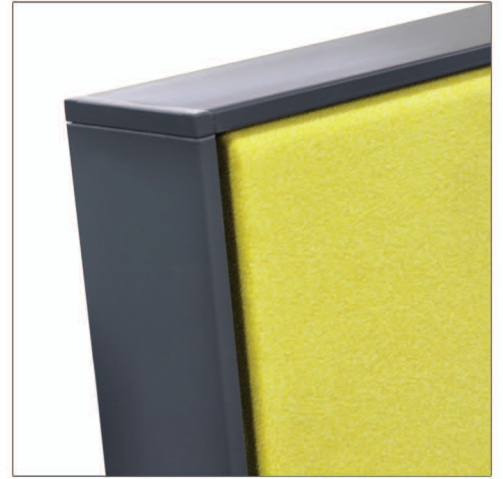

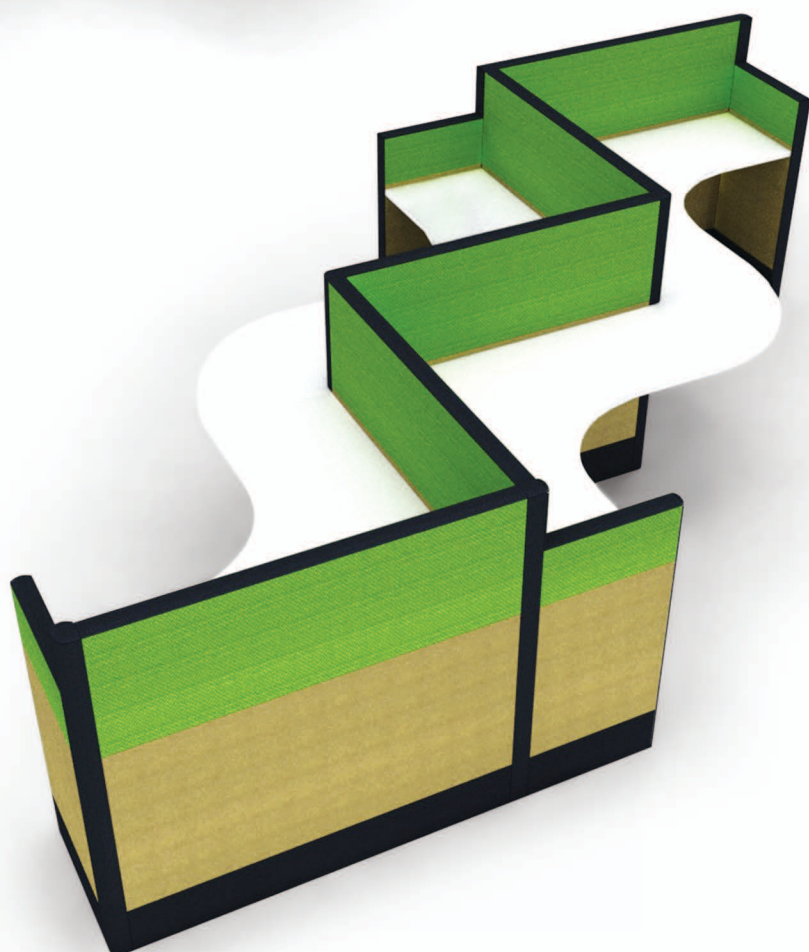

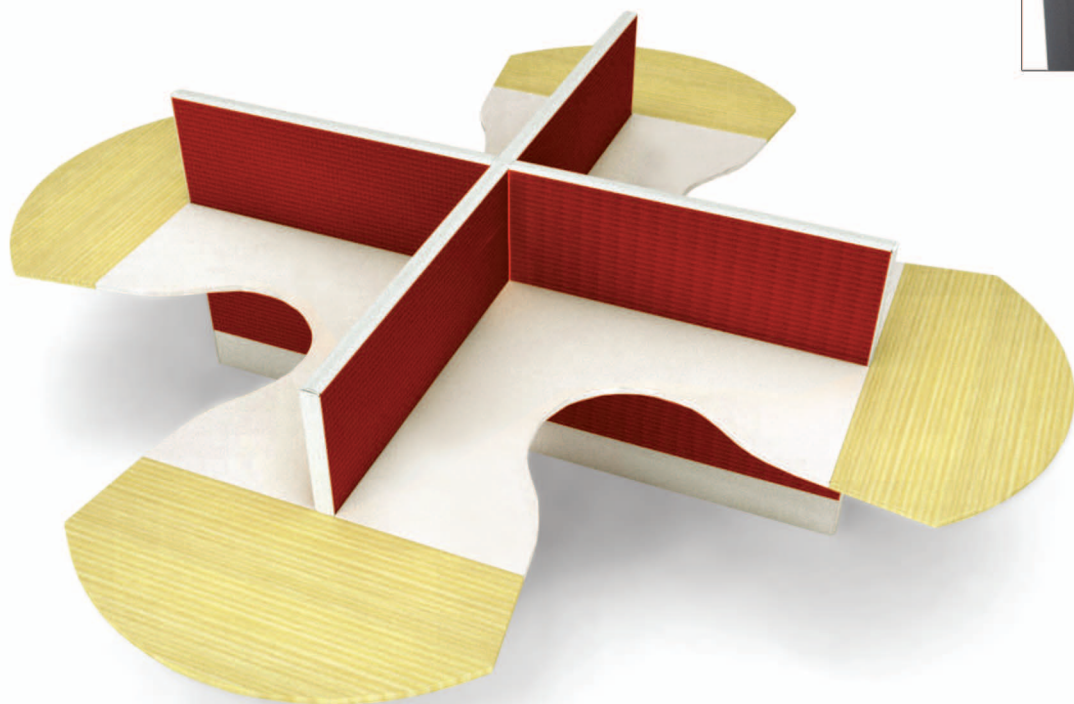

# ES 60-11

The unlimited options that are made available with this system, allows you to create the office that you want without compromise. White boards, panels, wood grain tiles and trims are just some of the options. **ES 60** and **60-11** provides excellent wire management within the panels.

ES 60

# ES 50 ECONOMICAL

This is where it all began, the ES 50 is the foundation of Ergo's system furniture applications. Originally dubbed as ES1 (ErgoSpace one), it offers a great looking and functional office. It's our most economical system.

# ES 32

## f l e x i b l e

The ES32 is a thin partition systems designed to save space. It is very contemporary and functional. It employs many of surface coverings, giving it diverse facades for any conceivable application.

# ES 80 STRENGTH

A more stable system because of the width of this systems, it has the same adaptability as the ES 60. It is most ideal for floor to ceiling applications.

# Storage

# Lockers

# Lateral Cabinets

These storages come in a wide range of accessories to choose from depending on the requirements
