SYSTEM

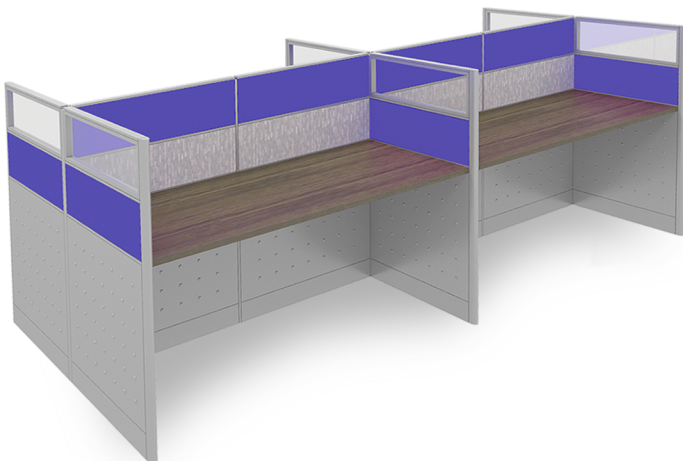

ES50 - 15

This is where it all began. The **ES 50-15** is the foundation of Ergo's system furniture applications. Originally dubbed as **ES1** (ErgoSpace one), it offers a great looking and functional office. It is our most economical system.

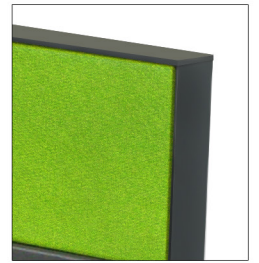

ES32

The ES32 is a thin partition system designed to save space. It is very contemporary and functional. It employs many surface coverings, giving it diverse facades for any conceivable application.

ES60 CLUSTER OF 6

The ES60 system clusters provide functionality without the boxiness of other open plan systems furniture. Ample options make these workspace very customizable and user friendly.

ED60

The unlimited options that are made available with this system, allow you to create the office you want without compromise. White boards, glass panels, wood grain tiles and wire management are just some of the option. ED60 partitions can be quickly reconfigured to repurpose your workspace.
