THEATER CINEMAS AUDITORIUM

Vesta Chairs from Audia Italia

VESTA is pure Italian design. A few straight lines that blend into the auditorium's structure and create a very modern atmosphere without being overwhelming. Vesta is the sister of Jupiter and goddess of the hearth and home. The name conveys the feeling of comfort but can also be associated to the Italian word "vestire", to dress. The collection offers hundreds of different versions allowing architects to "dress" the model in harmony with the wanted atmosphere. All materials and details are studied to be perfect and obtain stunning aesthetical results. The backrests can be connected to form a row, the seat can become an extension of the arm as the lines blend together and the folding seat mechanism can be concealed in the armrest.

ONE 2 ONE Chairs from Italy

One to One was designed as a chair for public seating, manufactured on an industrial scale, but endowed with a high degree of customization, which is expressed in the wide range of configurations and finishes, in the just-in-time availability of spares, in the speedy delivery timing and in the ease of fitting out. Seat width and back rest height can be custom built: One to One, to fully satisfy every single client.

Recliner Chair

Theater / Cinema Seat

TECHNICAL SPECIFICATION

- Upholstered 65 high density molded back foam
- Fire retardant CA117 standard
- With spring loaded mechanism for backrest & footrest
- Leatherette upholstered
- Size: 850mm(W) x 850mm(D) x 1030mm(H)

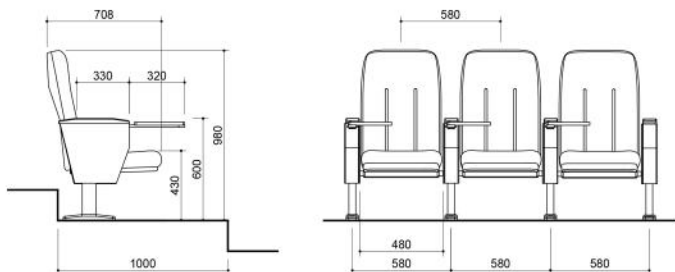

Auditorium Chair

Auditorium Seat

TECHNICAL SPECIFICATION

- Upholstered seat and back on countoured shape injected foam
- Counterweight mechanism for tip-up seat
- Integrated wooden writing tablet
- 3mm steel base leg in black powdercoat finish
